## Tip of the Month

Now that I am doing so many more crafts, this is a great chart to have in my scrapping space! Hope it helps you too.

# GLUE guide

Use the right glue for the right job.

Print this puppy and keep handy for when sticky questions come up.

When in doubt, or if the info you need isn't here, visit [ThisToThat.com](http://ThisToThat.com)

Always take care when using adhesives, including proper ventilation when required.

Pink dots = sometimes. With a lot of care, but not guaranteed and it's not always for that...

This guide is meant for quick reference only. Please read package instructions and follow directions when working with adhesives.
