

Happy February!

Volume 2 Issue 3
February 2010

Right now it is snowing steadily and Miss Minnie is curled up next the keyboard as

I type. We did walk this morning so she's glad to be inside and warm – as am I.

As a result of scrapbooking friend, Danette's inquiry, Scrap-n-Country has applied to be a retailer for

Making Memories. Check out their web site to see which of their items you might be interested in. Danette likes their 3 ring binders.

www.makingmemories.com

I have always liked their tools, brads, and paint.

Who wants to come scrap with me? I'd enjoy spending an afternoon or evening scrapping together and catching up! Please call or email and we'll make plans.

You're invited!

Lacy Slatzer has a remodeled basement and a new scrapping space!

Lacy

She says, My "favorite thing in the room" is the display wire from IKEA, that clips my most recent scrapbook pages; sometimes you want to just look at them for awhile:)

inspiration: I got great ideas from magazines and books. I thought about if I could have anything, what would I want, some things worked, some didn't.

work: all the work was done by my husband and myself. He built all the cabinets for me including the 12 x12 paper organizer and we worked together to paint and install the floor. I am truly loved!!

organization idea: I love to organize so there are a lot. Tons of the items I bought at IKEA, the hanging wire, the magnetic strip

with canisters, etc. most of the items were from the kitchen section, just thinking outside the box for how it could work for you.

best deal: the laminate floors from lumber liquidators, they were on clearance and easy to clean for any spills I might have.

My other favorite thing in the room is my "trash hole":) I had my husband cut a small hole in the countertop to slide all the paper scraps and trash straight into with

one swipe! Awesome idea from Creating Keepsakes' Lisa Bearnson; she has it in her space."

THANKS for sharing, Lacy!

Featured Tip

Do not use a ballpoint pen to write on the back of photographs – not even an acid free one. The pressure of the pen may damage the image. Often you can see the words embossed into the surface of the picture. Use an acid free felt tipped marker to label pictures. Press only lightly and be sure the ink is dry prior to stacking the photos.

Sticky Subject!

Featured Product

My favorite, and Scrap-n-Country's first product!

After trying every acid free adhesive in the stores and elsewhere, my current and longest lasting

favorite is the E-Z Runner. The tape comes off the roller in tiny rectangles. Rolling around a curve is easy. And, when just a bit is needed for an "i" or an "l," it is possible to pick up just one tiny rectangle with tweezers!

SNC every day price is 35% less than the MSRP of \$5.60 per runner.

\$3.64 + .25 tax = \$3.89 for a single roll
\$7.02 + .42 tax = \$7.49 for pkg of two

Because "just one adhesive" will not do everything, there are others that I use and like. They are available to you, too, at Scrap-n-Country's everyday low prices.

Sakura's Quickie Glue Pen is GREAT for tiny spaces, too. The glue line or dot is exactly like a ball point pen line or dot...excellent control as long as YOU don't get too nervous ☺

Glue dots are strong and "contained" and come in four sizes: craft, memory book, mini, and pop up.

Judikin's Diamond Glaze is a wonderful liquid adhesive that can be used to attach 3D embellishments as well as to

make a paper surface look 3D.

Here, Diamond Glaze was used to fix pebbles and wood letters to the cover of a "coffee table scrapbook."

To order, call or email. Shipping / delivery is FREE!

3M's Scrapbooking Tape is good for covering brad tails and staples on the backs of sb

pages...so they don't scratch pictures while pages wait to be placed in protectors.

Xyron adhesives are another option for safely sticking embellishments to scrapbook pages. The X works particularly well on small *Cricut* cut letters and shapes.

Both the machines and refills are available at Scrap-n-Country!
